

# Vocabulary Builder

- For **specific Vocabulary practice exercises** go to the Library of one of the four campuses of Athens Technical College. Tell the librarian/staff member that you wish to access the Practice Tests. That person will direct you to the ATC Website [www.athenstech.edu](http://www.athenstech.edu). Directions: On the left of the Website near the top, put the cursor over Current Students. Slide the cursor to the right. Scroll down to Library Services. Click once. In the center column near the top, scroll down to Practice Exams. Click once. Under Please Sign In, click once on New User. Pick a User Name and Password, typing each in the blanks provided. Click once on Continue. Click on Continue when you see the next page. On the page that says Choose a Subject, scroll down to **Skills Improvement Courses**. Click on Vocabulary & Spelling Course Series. After you sign in at a library facility the first time, from that point forward all you will ever need to get into the system **from anywhere** is to enter the user ID and password you create while at the library.
