

ATHENS TECHNICAL COLLEGE

2009-2010 SAT REASONING TEST* REGISTRATION FORM

***Open ONLY to applicants of Radiography and Veterinary Technology.**

The SAT Reasoning Test given at Athens Technical College is an *institutionally administered* assessment. This means that your scores will be used internally for ATC admissions purposes only. **These SAT scores will not be reported to the SAT home office by Athens Tech, and no further official record will be available after you receive your scores.** We do not send SAT scores to other colleges or universities, so please keep that in mind if you plan to use these scores beyond your application to a selective health program at Athens Technical College.

The SAT Reasoning Test will only be administered to **current applicants of either the radiography or veterinary technology program** who have **pre-registered** for the exam by one of the deadline dates listed on the reverse side. **Athens Technical College is not authorized to administer the SAT test to any other students. It is not available for general admission purposes.** If you are not able to take the exam on the date selected, please be aware that you may forfeit your registration fee, which is not transferable to another date once the deadline has passed. No last minute arrivals for the SAT will be allowed. Test scores should be available within 2-3 weeks of the test administration date.

As recommended by Educational Testing Services, no applicant to a selective health program at Athens Technical College will be permitted to repeat the *institutionally administered* SAT Reasoning examination any sooner than six months from the original date of testing. However, there is no restriction on how frequently a student can take the *nationally administered* SAT. Students interested in pursuing that option can obtain additional information from the SAT website at www.collegeboard.com. National administration dates for the SAT are listed on the reverse side of this form.
