

**Articulation Agreement
between
Athens Technical College
and College of Coastal Georgia**

This document establishes an articulation agreement between Athens Technical College (ATC) and the College of Coastal Georgia (CCGA) that outlines coursework from Athens Technical College that may be applied to the Bachelor of Applied Science in Workforce Management and Leadership program offered by the College of Coastal Georgia. In entering into the agreement, Athens Technical College and the College of Coastal Georgia have several goals, which include:

- Assisting prospective transfer students at Athens Technical College to progress toward their baccalaureate degree goals;
- Enabling Athens Technical College students to follow a course of study that allows them to begin upper-level course work immediately upon transfer;
- Assuring Athens Technical College students that if they follow the terms of this approved articulation agreement, they will be admitted to the Bachelor of Applied Science in Workforce Management and Leadership at the College of Coastal Georgia;
- Facilitating cooperation between counseling offices and transfer centers at their respective institutions.

The College of Coastal Georgia in partnership with the Athens Technical College has developed transfer procedures to implement this agreement. To assure that the articulation agreement remains current, the respective parties agree to consult regularly on issues of enrollment, articulation, and program changes. The goal of both Athens Technical College and the College of Coastal Georgia is to minimize barriers to transfer and increase the number of students who successfully complete the baccalaureate degree.

Justification:

By completing the requirements for the Bachelor of Applied Science in Workforce Management and Leadership from the College of Coastal Georgia and the Associate of Applied Science at Athens Technical College, students will be more marketable and better prepared for a job in their field of study than those completing only an Associate's degree. Athens Technical College and the School of Business and Public Management at the College of Coastal Georgia are entering into this articulation

agreement to allow students the opportunity to complete a Bachelor of Applied Science in Workforce Management and Leadership in a timely manner by applying coursework taken at Athens Technical College.

Terms of Articulation:

Any Athens Technical College student who graduates with an Associate of Applied Science degree with a minimum of a 2.0 GPA will be admitted into the Bachelor of Applied Science in Workforce Management and Leadership Program at College of Coastal Georgia. The College of Coastal Georgia will accept 36 hours of technical/major course credit (18 hours for Area F and 18 hours for general electives) from A.A.S. degrees earned at A Technical College as well as approved University System of Georgia general education courses completed by the student (15-16 general education hours are required for AAS degrees). The College of Coastal Georgia may also accept a student's Diploma Degree from A Technical College into the BASW program with the understanding that a student will be responsible for any missing core courses as required within the BASW program.

Agreement on Communication

ATC and CCGA agree to cooperate in the publication and promotion of the articulation agreement between the two schools. Both parties will facilitate the dissemination of information about this program to interested and qualified students, with both institutions providing academic counseling and advisement.

Agreement on Maintenance and Review

At least one administrator or faculty member from each institution will be appointed to act as a primary point of contact and agent for the implementation of this agreement, to speak for the institutions, and to communicate details and modifications to respective faculty members, advisors, counselors, and others to whom the information is pertinent.

This agreement is open to all ATC students regardless of race, color, religion, gender, age, creed, national origin or disability. This agreement will be automatically renewed unless one of the parties notifies the other of its desire to terminate the agreement. Such notification must be in writing and submitted one year in advance with the effective date to coincide with the last day of the academic term under which it falls. Terms of this Agreement will be effective June 2019.

Agreement on Accreditation

This agreement is contingent upon the continuation of all appropriate program and institutional accreditations, including the Southern Association of Colleges and Schools and the Commission on Colleges (SACS/COC) and those from professional bodies.

CHEM 1212L - Chemistry Lab II	1	CHEM 1212L – Area D	1
Area IV - Humanities/Fine Arts			
(Choose ONE of the following)			
ARTS 1101 - Art Appreciation	3	ARTS 1100 – Area C	3
ENGL 2110 - World Literature	3	ENGL 2111 – Area C	3
ENGL 2130 - American Literature	3	ENGL 2130 – Area C	3
HUMN 1101 - Introduction to Humanities	3	TELC – Area C	3
MUSC 1101 - Music Appreciation	3	MUSI 1100 – Area C	3
RELG 1101 - World Religions	3	TELC – Area C	3
General Education Elective:			
To meet the minimum required 15 semester credit hours in general education courses, an additional 3 semester credit hours must be taken from Area I, Area II, Area III, or Area IV.		We recommend ENGL 1102 from Area I, as it is a required course at CCGA.	
Technical Courses (45 - 65 Credits)		36 of these credits will be applied toward the major.	

*Note: Courses where the CCGA Transfer course is listed as “TELC” are courses that do not correspond with a CCGA course, but are an accepted course to satisfy the area.

*Note: To receive credit for BIOL 1107 or PHYS 1111 at CCGA, students must complete BIOL 1111 + BIOL 1111L or PHYS 1111 + PHYS 1111L, respectively, at TCSG Technical College.

Courses highlighted in blue are the recommended program courses to take for transfer credit—technical courses completed at the TCSG institution. Within a concentration, students will need to complete 36 credit hours of technical education courses at a TCSG institution to satisfy the degree requirements for the Bachelor of Applied Science. Students will also be required to complete 45 credits of Workforce Management and Leadership courses.
